

## **Rapid Fire Pistol.**

The target used for Rapid Fire Pistol is the ISSF 25m Rapid Fire Pistol target. You will need a .22 long calibre pistol and 65 rounds.

Shooters must be in the ready position at the start of each series.

The ready position is arm extended at 45 degrees forward and down.

When the targets turn to the exposed position the shooter raises the pistol and fires one round at each target in the allocated time.

Preparation time is 3 minutes.
